DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, and 25-29 are drawn to a pad held by part of a seal, classified in class 2, subclass 267.
 - II. Claims 13-24 and 30-35 are drawn to pad not held by a seal, classified in class 2, subclass 69.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are structurally unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case invention I pertains to a pad being held by part of a seal that is classified in 2/247 and invention II pertains to a pad which is not held by a seal that is classified in 2/69

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
